### **How to read the numbers in this report?**

Different language industries follow different reporting conventions (Gross, Nett or Share). We have used Gross Box Office as the unified measure for this report. For films releasing in multiple languages, collections are added up across languages to arrive at the film's Gross Box Office at an all-India level.

Some films may be running in theatres at the time of publishing this report every month. For these films, Gross Box Office is estimated based on the latest trends available. Hence, it is normal that some numbers may be updated in the following month's report, once actual collections have been estimated.

Numbers for a film are assigned to the month of its release, even if the business is spread over two or more months. For example, Kalki 2898 AD released on June 27, 2024, and a sizeable component of the film's business was registered in July 2024. However, in the analysis, Kalki 2898 AD's entire box office has been credited to the month of June.
